

**Product Name: Sensapool Alkalinity Increaser****Section 1 – Identification of the Material and Supplier**

**Other Names:** Sodium bicarbonate, sodium hydrogen carbonate, baking soda.  
**Product Use:** pH and alkalinity increaser  
**This version issued:** **Aug, 2025** and is valid for 5 years from this date.  
**Supplier:** Spa-Craft Pty Ltd  
**ABN:** 48 600 353 713  
**Address:** 20 Curtis Rd, Mulgrave NSW 2756 Australia  
**Phone Number:** 1300 498 819 (office hours)  
**Poisons Information Centre: Phone 13 11 26 from anywhere in Australia**

**Section 2 – Hazards Identification****Statement of Hazardous Nature****SUSMP Classification:** None allocated.**ADG Classification:** None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code.**UN Number:** None allocated.**GHS Signal word: NONE. Not hazardous.****RESPONSE**

P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P332+P313: If skin irritation occurs: Get medical advice.

P337+P313: If eye irritation persists: Get medical advice.

P370+P378: Not combustible. Use extinguishing media suited to burning materials.

**STORAGE**

P402+P404: Store in a dry place. Store in a closed container.

**DISPOSAL**

P501: Dispose of contents and containers to landfill.

**Emergency Overview****Physical Description & Colour:** White crystalline powder.**Odour:** No odour.**Major Health Hazards:** No significant risk factors have been found for this product.**Section 3 – Composition/Information on Ingredients**

Ingredients	CAS No	Conc, %	TWA (mg/m <sup>3</sup> )	STEL (mg/m <sup>3</sup> )
Sodium bicarbonate	144-55-8	pure*	not set	not set

\*Commercially pure. May include small quantities of materials due to manufacturing or reaction process.

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

**Product Name: Sensapool Alkalinity Increaser**

## Section 4 – First Aid Measures

**General Information:**

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

**Inhalation:** No first aid measures normally required. However, if inhalation has occurred, and irritation has developed, remove to fresh air and observe until recovered. If irritation becomes painful or persists more than about 30 minutes, seek medical advice.

**Skin Contact:** Gently brush away excess particles. Wash gently and thoroughly with water (use non-abrasive soap if necessary) for 5 minutes or until product is removed.

**Eye Contact:** Quickly and gently brush particles from eyes. No effects expected. If irritation does occur, flush contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the product is removed. Obtain medical advice if irritation becomes painful or lasts more than a few minutes. Take special care if exposed person is wearing contact lenses.

**Ingestion:** If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.

## SECTION 5 – Fire Fighting Measures

**Fire and Explosion Hazards:** There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Fire decomposition products from this product are not expected to be hazardous or harmful.

**Extinguishing Media:** Not combustible. Use extinguishing media suited to burning materials.

**Fire Fighting:** If a significant quantity of this product is involved in a fire, call the fire brigade.

**Flammability Class:** Does not burn.

## SECTION 6 – Accidental Release Measures

**Accidental release:** Minor spills do not normally need any special cleanup measures. In the event of a major spill, prevent spillage from entering drains or water courses. As a minimum wear overalls, goggles and gloves. Suitable materials for protective clothing include cotton and rubber. Eye/face protective equipment should comprise as a minimum, protective glasses and preferably goggles. If there is a significant chance that dusts are likely to build up in cleanup area, we recommend the use of a suitable dust mask.

Stop leak if safe to do so and contain spill. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage and dispose of promptly. Consider vacuuming if appropriate. Recycle containers wherever possible after careful cleaning. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. Contaminated area may be neutralised by washing with weak or diluted acid. Vinegar, citrus juice and most soft drinks may be suitable. This material may be suitable for approved landfill. Ensure legality of disposal by consulting regulations prior to disposal. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.

## SECTION 7 – Handling and Storage

**Handling:** Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures, and make sure those measures are followed. The measures detailed below under “Storage” should be followed during handling to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

**Storage:** Keep containers dry and away from water. Make sure that the product does not come into contact with substances listed under “Incompatibilities” in Section 10. Check packaging – there may be further storage instructions on the label.

**Product Name: Sensapool Alkalinity Increaser****SECTION 8 – Exposure Controls and Personal Protection**

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory Equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: **AS/NZS 4501**, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS 2210**.

<b>SWA Exposure Limits</b>	<b>TWA (mg/m<sup>3</sup>)</b>	<b>STEL (mg/m<sup>3</sup>)</b>
----------------------------	-------------------------------	--------------------------------

Exposure limits have not been established by SWA for this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

**Ventilation:** No special ventilation requirements are normally necessary for this product, however, make sure that the work environment remains clear and that dusts are minimised.

**Eye Protection:** Eye protection is not normally necessary when this product is being used. However, if in doubt wear suitable protective glasses or goggles.

**Skin Protection:** The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.

**Protective Material Types:** We suggest that protective clothing be made from the following materials: cotton, rubber.

**Respirator:** If there is a significant chance that dusts are likely to build up in the area where this product is being used, we recommend that you use a suitable dust mask.

**SECTION 9 – Physical and Chemical Properties**

**Physical Description & Colour:** White crystalline powder.

**Odour:** No odour.

**Boiling Point:** Not applicable.

**Flash Point:** Does not burn.

**Upper Flammability Limit:** Does not burn.

**Lower Flammability Limit:** Does not burn.

**Freezing/Melting Point:** Begins to decompose about 70°C.

**Volatiles:** Nil at 100°C.

**Vapour Pressure:** Nil at normal temperatures.

**Vapour Density:** Not applicable.

**Specific Gravity:** 2.159 (bulk density about 1.0)

**Water Solubility:** Soluble.

**pH:** pH of 1% solution in water is about 8.4

**Volatility:** Nil at normal ambient temperatures.

**Odour Threshold:** No data.

**Evaporation Rate:** Not applicable.

**Coeff Oil/Water Distribution:** No data.

**Particle Characteristics:** Crystalline powder.

**Autoignition Temp:** Not applicable – does not burn.

**Product Name: Sensapool Alkalinity Increaser**

## SECTION 10 – Stability and Reactivity

**Reactivity:** This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf-life properties.

**Conditions to Avoid:** Containers should be kept dry.

**Incompatibilities:** Water, acids.

**Fire Decomposition:** Combustion forms carbon dioxide, usually without carbon monoxide and smoke. Sodium compounds.

**Polymerisation:** This product will not undergo polymerisation reactions.

## SECTION 11 – Toxicological Information

**Local Effects:**

**Target Organs:** There is no data to hand indicating any target organs.

## Classification of Hazardous Ingredients

**Ingredient**

**Health Hazard Statement Codes**

No ingredient mentioned in the HCIS Database is present in this product at hazardous concentrations.

## Potential Health Effects

**Inhalation:**

**Short term exposure:** Available data indicates that this product is not harmful. In addition, product is unlikely to cause any discomfort or irritation.

**Long term exposure:** No data for health effects associated with long term inhalation.

**Skin Contact:**

**Short term exposure:** Available data indicates that this product is not harmful. It should present no hazards in normal use. In addition, product is unlikely to cause any discomfort in normal use.

**Long term exposure:** No data for health effects associated with long term skin exposure.

**Ingestion:**

**Short term exposure:** Significant oral exposure is unlikely. However, this product may be mildly irritating to mucous membranes but is unlikely to cause anything more than mild transient discomfort.

**Long term exposure:** No data for health effects associated with long term ingestion.

**Eye Contact:**

**Short term exposure:** This product may be mildly irritating to eyes, but is unlikely to cause anything more than mild discomfort which should disappear once product is removed.

**Long term exposure:** No data for health effects associated with long term eye exposure.

**Carcinogen Status:**

**SWA:** No significant ingredient is classified as carcinogenic by SWA.

**NTP:** No significant ingredient is classified as carcinogenic by NTP.

**IARC:** No significant ingredient is classified as carcinogenic by IARC.

## SECTION 12 – Ecological Information

This product is unlikely to adversely effect the environment. Salts, acids and bases are typically diluted and neutralised when released to the environment in small quantities.

**Product Name: Sensapool Alkalinity Increaser**

### SECTION 13 – Disposal Considerations

**Disposal:** This product may be recycled if unused, or if it has not been contaminated to make it unsuitable for its intended use. If it has been contaminated, it may be possible to separate the contamination in some way. Only if neither of these options is suitable, consider landfill.

### SECTION 14 – Transport Information

**UN Number:** This product is not classified as a Dangerous Good by ADG, IATA or IMDG/IMSBC criteria. No special transport conditions are necessary unless required by other regulations.

### SECTION 15 – Regulatory Information

**AICIS:** This product is compliant with AICIS regulations.

### SECTION 16 – Other Information

**This SDS contains only safety-related information. See product literature for other data.**

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD STATEMENT: INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE. IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS. OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

Please read all labels carefully before using this product.

This SDS is prepared in accordance with the SWA document "Preparation of Safety Data Sheets for Hazardous Chemicals – Code of Practice" (June 2023) and GHS Revision 7
