

Product Name: Sensapool Clarifier

Section 1 – Identification of the Material and Supplier

Other Names: Cationic polymer
Product Use: Swimming pool clarifier and flocculent.
This version issued: **Mar, 2026** and is valid for 5 years from this date.
Supplier: Spa-Craft Pty Ltd
ABN: 48 600 353 713
Address: 20 Curtis Rd, Mulgrave NSW 2756 Australia
Phone Number: 1300 498 819 (office hours)
Poisons Information Centre: Phone 13 11 26 from anywhere in Australia

Section 2 – Hazards Identification

Statement of Hazardous Nature

SUSMP Classification: None allocated.

ADG Classification: None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code.

UN Number: None allocated.

GHS Signal word: NONE. Not hazardous.

PREVENTION

- P102: Keep out of reach of children.
- P262: Do not get in eyes, on skin or clothing.
- P273: Avoid release to the environment.

RESPONSE

- P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- P337: If eye irritation persists: Seek medical attention.
- P353: Rinse skin or shower with water.
- P370+P378: Not combustible. Use extinguishing media suited to burning materials.

STORAGE

- P404: Store in a closed container.

DISPOSAL

- P501: If they cannot be recycled, dispose of contents to an approved waste disposal facility and containers to landfill (refer Section 13 of this SDS).

Emergency Overview

Physical Description & Colour: Blue liquid.

Odour: Slight odour.

Major Health Hazards: No significant risk factors have been found for this product.

Section 3 – Composition/Information on Ingredients

Ingredients	CAS No	Conc,%	TWA (mg/m ³)	STEL (mg/m ³)
Cationic polymer	26062-79-3	40	not set	not set
Other non-hazardous ingredients	secret	to 100	not set	not set

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Product Name: Sensapool Clarifier

Section 4 – First Aid Measures**General Information:**

You should call The Poisons Information Centre if you feel that you may have been poisoned, burned or irritated by this product. The number is 13 11 26 from anywhere in Australia (0800 764 766 in New Zealand) and is available at all times. Have this SDS with you when you call.

Inhalation: If irritation occurs, move affected person to fresh air until recovered. Obtain medical attention if symptoms develop or persist. If not breathing give artificial respiration.

Skin Contact: Gently wash affected area with soap and water. If redness or rash develop seek medical advice.

Eye Contact: Immediately flush contaminated eye(s) with water for 15 minutes whilst holding eyelids apart. If irritation persists seek medical attention. Take special care if exposed person is wearing contact lenses.

Ingestion: If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.

SECTION 5 – Fire Fighting Measures

Fire and Explosion Hazards: There is no risk of an explosion from this product under normal circumstances if it is involved in a fire. Fire decomposition products from this product are likely to be toxic if inhaled. This will only occur after heating to dryness. Take protective measures.

Extinguishing Media: Not combustible. Use extinguishing media suited to burning materials.

Fire Fighting: If a significant quantity of this product is involved in a fire, call the fire brigade.

Flammability Class: Does not burn.

SECTION 6 – Accidental Release Measures

Accidental release: Minor spills do not normally need any special cleanup measures. In the event of a major spill, prevent spillage from entering drains or water courses. As a minimum wear overalls, goggles and gloves. Suitable materials for protective clothing include PVC, rubber. Eye/face protective equipment should comprise as a minimum, protective glasses and preferably goggles. If there is a significant chance that vapours or mists are likely to build up in cleanup area, we recommend the use of a suitable respirator.

Stop leak if safe to do so and contain spill. Absorb onto sand, vermiculite or other suitable absorbent material. If spill is too large or if absorbent material is not available, try to create a dike to stop material spreading or going into drains or waterways. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage and dispose of promptly. Recycle containers wherever possible after careful cleaning. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. This material may be suitable for approved landfill. Ensure legality of disposal by consulting regulations prior to disposal. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.

SECTION 7 – Handling and Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Check Section 8 of this SDS for details of personal protective measures and make sure those measures are followed. The measures detailed below under "Storage" should be followed during handling to minimise risks to persons using the product in the workplace. Also, avoid contact or contamination of product with incompatible materials listed in Section 10.

Storage: Store this product in a dry, cool place, preferably below 30°C. Make sure containers are kept tightly closed. Make sure that the product does not come into contact with substances listed under "Incompatibilities" in Section 10. Some liquid preparations settle or separate on standing and may require stirring before use. Check packaging – there may be further storage instructions on the label.

Product Name: Sensapool Clarifier

SECTION 8 – Exposure Controls and Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory Equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: **AS/NZS 4501**, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS 2210**.

SWA Exposure Limits	TWA (mg/m³)	STEL (mg/m³)
----------------------------	-------------------------------	--------------------------------

Exposure limits have not been established by SWA for this product.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation: No special ventilation requirements are normally necessary for this product, however, make sure that the work environment remains clean and that vapours and mists are minimised.

Eye Protection: Eye protection such as protective glasses or goggles is recommended when this product is being used.

Skin Protection: The information at hand indicates that this product is not harmful and that normally no special skin protection is necessary. However, we suggest that you routinely avoid contact with all chemical products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.

Protective Material Types: We suggest that protective clothing be made from the following materials: PVC, rubber.

Respirator: Not normally necessary when using this product.

SECTION 9 – Physical and Chemical Properties

Physical Description & Colour:	Blue liquid.
Odour:	Slight odour.
Boiling Point:	Approx 100°C at 100kPa.
Flash Point:	Does not burn.
Upper Flammability Limit:	Does not burn.
Lower Flammability Limit:	Does not burn.
Freezing/Melting Point:	Below 0°C.
Volatiles:	Water component.
Vapour Pressure:	2.37kPa at 20°C (water vapour pressure).
Vapour Density:	No data.
Specific Gravity:	1.15
Water Solubility:	Soluble.
pH:	6-7.
Volatility:	No data.
Odour Threshold:	No data.
Evaporation Rate:	No data.
Coeff Oil/Water Distribution:	No data.
Particle Characteristics:	Not applicable.
Autoignition Temp:	Not applicable – does not burn.

Product Name: Sensapool Clarifier**SECTION 10 – Stability and Reactivity**

Reactivity: This product is unlikely to react or decompose under normal storage conditions. However, if you have any doubts, contact the supplier for advice on shelf-life properties.

Conditions to Avoid: None known.

Incompatibilities: Strong oxidising agents.

Decomposition: No significant quantities of decomposition products are expected at temperatures normally achieved in a fire.

Polymerisation: This product will not undergo polymerisation reactions.

SECTION 11 – Toxicological Information

Local Effects:

Target Organs: There is no data to hand indicating any target organs.

Classification of Hazardous Ingredients

Ingredient

Health Hazard Statement Codes

No ingredient mentioned in the HCIS Database is present in this product at hazardous concentrations.

Potential Health Effects

Inhalation:

Short term exposure: Significant inhalation exposure is unlikely. This product may be mildly irritating but is unlikely to cause anything more than mild discomfort.

Long term exposure: No data for health effects associated with long term inhalation.

Skin Contact:

Short term exposure: Available data indicates that this product is not harmful. This product may be mildly irritating to skin but is unlikely to cause anything more than mild discomfort which should disappear once product is removed.

Long term exposure: No data for health effects associated with long term skin exposure.

Ingestion:

Short term exposure: Significant oral exposure is unlikely. This product may be irritating to mucous membranes but is unlikely to cause anything more than mild discomfort.

Long term exposure: No data for health effects associated with long term ingestion.

Eye Contact:

Short term exposure: Significant eye exposure is considered unlikely. This product may be mildly irritating to eyes but is unlikely to cause anything more than mild discomfort which should disappear once product is removed.

Long term exposure: No data for health effects associated with long term eye exposure.

Carcinogen Status:

SWA: No significant ingredient is classified as carcinogenic by SWA.

NTP: No significant ingredient is classified as carcinogenic by NTP.

IARC: No significant ingredient is classified as carcinogenic by IARC.

SECTION 12 – Ecological Information

Harmful to aquatic organisms but not expected to cause long-term adverse effects to the aquatic environment.

Product Name: Sensapool Clarifier

SECTION 13 – Disposal Considerations

Disposal: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

SECTION 14 – Transport Information

ADG Code: This product is not classified as a Dangerous Good by ADG, IATA or IMDG/IMSBC criteria. No special transport conditions are necessary unless required by other regulations.

SECTION 15 – Regulatory Information

AICIS: All significant ingredients in this product are compliant with AICIS regulations.

SECTION 16 – Other Information

This SDS contains only safety-related information. See product literature for other data.

THIS SDS SUMMARISES OUR BEST KNOWLEDGE OF THE HEALTH AND SAFETY HAZARD STATEMENT: INFORMATION OF THE PRODUCT AND HOW TO SAFELY HANDLE AND USE THE PRODUCT IN THE WORKPLACE. EACH USER MUST REVIEW THIS SDS IN THE CONTEXT OF HOW THE PRODUCT WILL BE HANDLED AND USED IN THE WORKPLACE. IF CLARIFICATION OR FURTHER INFORMATION IS NEEDED TO ENSURE THAT AN APPROPRIATE RISK ASSESSMENT CAN BE MADE, THE USER SHOULD CONTACT THIS COMPANY SO WE CAN ATTEMPT TO OBTAIN ADDITIONAL INFORMATION FROM OUR SUPPLIERS. OUR RESPONSIBILITY FOR PRODUCTS SOLD IS SUBJECT TO OUR STANDARD TERMS AND CONDITIONS, A COPY OF WHICH IS SENT TO OUR CUSTOMERS AND IS ALSO AVAILABLE ON REQUEST.

Please read all labels carefully before using this product.

This SDS is prepared in accordance with the SWA document "Preparation of Safety Data Sheets for Hazardous Chemicals – Code of Practice" (June 2023) and GHS Revision 7
